

PRESS RELEASE
June 9, 2022

Manu Madhok, Superintendent of Schools, is pleased to announce the following addition to the administrative team effective August 1, 2022.

Erin Baker will be the new Vice-Principal at Nechako Valley Secondary. Erin is an accomplished teacher with 19 years of experience with the District. She began her career at Fraser Lake Elementary Secondary in 2003 before moving to NVSS the following year. She taught Drama, Textiles, and several Careers-related classes until 2018 when she moved into the Counselling department at the school.

Erin graduated from the University of Victoria in 2002 and recently completed a Master of Counselling from UNBC. She has a broad background in Trauma-Informed Practice, mental health training and supporting vulnerable youth. This experience and knowledge will assist Erin in her new role within the school and community.

Manu Madhok commented that “Erin’s commitment and diverse background will continue to serve the school community, especially as we emerge from the global pandemic. Her counselling experience and working knowledge of NVSS are a benefit for staff, students, and families. It is great to see another long-time local educator moving into a formal leadership position in SD91.”

Erin will join long-time Principal Ken Young and the rest of the staff to continue the important work on strategic goals for increasing success for all learners.
